

## AP Direct - A direct link between companies & investors

---

Aktieporteføljen or AP, offers companies the most effective exposure to potential investors available on the market today.

AP's community of + 33,000 private as well as professional investors, constitutes Scandinavia's largest investment network.

Knowledge regarding equities, commodities, fixed income, real estate, debt and the economy in general, is shared between members.

The forum is currently hosted as a closed group on Facebook, which means we are literally in the hands or the pockets of every member, while we are also developing an ambitious new platform. See it as one big newsletter opened by all members !

AP Direct gives your company the status of a featured discussion, meaning all members are notified and presented to your particular business, and grants you access to direct dialogue with thousands of potential investors.

### Bulletpoints :

- + 33,000 members, 70 % Danish and roughly 25% from rest of Scandinavia and 5% worldwide.
- + 1500 new members/investors per month.
- First larger milestone 50,000 members early Q1 18.
- Approximately 1,000,000 visits in total per month from all our members.
- All major financial news media in Denmark are represented in the community.
- A conservative estimate based on surveys, indicates that + 1B DKK in Cash Money is held ready for investments by the AP community and with pensions one could multiply with a factor 7-8 !
- Arrange live video Q&A sessions or transmit the GM directly in our forum.
- Post through your own IR representatives or have our Admins do the job.
- We ensure that the activities are in compliance with EU regulations.
- Attract investors to all kinds of different investments.
- All advertisement expenses from companies can be deducted from corporate income tax returns as "necessary business expenses" what's to lose but lack of serious attention ?

In addition to this, AP shares (upon your agreement) information about your company within our LinkedIn network ( +9600 connections), and other forums - reaching a total of 125,000 potential investors across Scandinavia.
